FISCAL IMPACT - Small Business

Small businesses could be fiscally impacted by the increase in potential licensees resulting from this proposed legislation.

DESCRIPTION

This proposed legislation removes the minimum age requirement for persons seeking a professional license in this state who currently hold a professional license in another state which is deemed to have substantially equivalent licensing requirements.

The proposal adopts certain criteria for inactive licenses for all professions within the Division of Professional Registration. Licensees granted inactive status may return to active status by meeting all requirements established by each board. Persons holding temporary licenses may place their license on inactive status until they are able to complete the necessary requirements for licensure.

The proposal also allows lapsed licenses to be renewed within a five- year period by meeting all requirements established by the board, excluding the licensing examinations.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
